Architectural Consulting

As security consultants, FST will provide design guidelines and project written specifications for security system to be installed at any facility currently in the design development phase. We will review, mark-up and return any shop drawings for security system being installed. Field/Site Survey, prepare preamble and specifications, field verify that system was installed per spec.

Submit design scope information for cost estimating purposes during 60% construction document phases, and written spec for bidding.

Middletown, RI - 2019

Provided design guidelines and written specifications for the security system to be installed. This was for the entry vestibule security project in 2019 for the **Joseph H. Gaudet Middle School**.

Pawtucket, RI - 2017

Review, mark-up and return any shop drawings for security system being installed at **Potter-Burns Elementary School**.

Provide design guidelines and project written specification for security system to be installed at **Nathanael Greene Elementary School**, currently in design development phase. Submit design scope information for cost estimating purposes during dd and 60% cd phases, and written spec for bid in February 2017.

The other 14 schools of the Pawtucket School Department (**Elizabeth Baldwin Elementary, M. Virginia Cunningham Elementary, Flora S. Curtis Elementary, Curvin McCabe Elementary, Fallon Memorial Elementary, Agnes E. Little Elementary, Francis J. Varieur Elementary, Henry J. Winters Elementary, Lyman B. Goff Middle School, Joseph Jenkins Middle School, Jacqueline Walsh School for the Arts, Charles E. Shea Senior High, Samuel Slater Middle School, and William E. Tolman Senior High**)

Stage ii schematic design report for security upgrades. Design and written specification for bid purposes once scope of work is finalized. Stage iii design development and bid/construction documents for security upgrades. And Stage iv construction administration for security upgrades.

Exeter-West Greenwich, RI - 2014/2015

School department of Exeter/West Greenwich. Security Network, Communications (ie; Intercom, Video Surveillance), Access Control, Doors and Lock Hardware also including Key System.
