

LCN

4040XP Series

LCN's most durable surface-mounted heavy-duty closer, designed for the most demanding high-use-and-abuse applications. It meets the ADA reduced opening force requirements.

The patented Green Dial on the 4040XP makes spring adjustments fast, easy and foolproof. The all-weather fluid reduces maintenance and ensures consistent performance through every season. High-traffic doors call for heavy-duty closers - closers that won't let you down no matter how many people go through the door. When it comes to heavy-duty closers, no other closer performs like the LCN 4040XP.

WEATHER PROTECTION

For installations where a higher level of protection against weather conditions, or the effects of a potentially corrosive atmosphere is required, LCN offers a special rust inhibiting (SRI) process.

Metal components receive an SRI pretreatment and a standard powder coat finish of your choice, or a custom powder coat finish for a nominal additional cost. Closers treated with the SRI process exceed the 100 hour protection level available with standard LCN powder coated finishes.

FEATURES & BENEFITS

- § Cast iron
- § Forged steel arm
- § Double heat treated steel pinion
- § All weather fluid
- § Non-handed
- § LCN Green Dial spring force indicator
- § Peel-n-stick templates
- § UL and cUL Listed
- § $1\frac{1}{16}$ " Journal diameter pinion
- § Full complement bearing
- § Tested and certified under ANSI standard A156.4, Grade 1
