

MEDECO XT

ASSA ABLOY

Medeco XT is a purely electronic master key system providing Controlled Access, Accountability, Physical Security and effective System Management. More than just a way to protect your property, equipment and assets, Medeco XT is also a business tool that can lead to a substantial return on investment.

What makes this investment so invaluable is that all “re-keying” is done electronically. So personnel changes, updates or removals can be done through the programming of the key. It controls **who** has access, **where** they have access, and **when** they have access.

Medeco XT Small Format Interchangeable Core

Accountability

Uses Existing
Hardware

Reduce Risk of
Lost Keys

Electronic
Scheduling

Cylinder Features

- No wiring required – all power provided by the key
- Indoor/Outdoor use – stainless-steel shell construction
- 2,000 audit events
- Unauthorized key list
- Variety of cylinder formats

Key Features

- Small, robust electronic key with stainless-steel housing
- All programming done at the key
- Key holds operating and expiration schedule
- Control Key is used for SFIC core removal
- Rechargeable battery, up to 1,500 openings per charge
- Access: 5,000 cylinders maximum
- Audit: 5,000 events maximum
- Stand-alone, network, and WEB programming options

Controlled Access

Keys are electronically programmed to open only specific locks during a designated schedule.

Accountability

Audit information recorded in both the lock and key shows a time-and-date stamped record of every event, including authorized accesses and unauthorized attempts.

Electronic Rekeying & Scheduling

Respond quickly to security threats, lost or stolen keys, or personnel changes without the added cost of changing your locks and keys.

Easy Installation

Simply remove the existing mechanical cylinder and install the Medeco XT cylinder.

Physical Security

Attack-resistant design and tamper-proof features provide strong protection against forced entry.
