NORTON

5800 Series ADAEZ
LOW ENERGY OPERATOR

Norton®
ASSA ABLOY

Regenerative Power

One of the world's only regenerative power door operators, Norton's ADAEZ 5800's series is certified to reduce energy consumption. Available in wireless and plug-in versions and able to fit in the tightest of spaces

- Non-handed
  95° max. door opening
- Push and pull side mounting
- Push-and-Go
- Power Close
- Radio Frequency stainless steel push buttons
- Shock absorbing arm

BENEFITS

Simple Installation

- Mounts on door
- No voltage / low voltage power to opening
- Patented Auto-Tune ensures safety & compliance

Flexible

- Adjustable open/closing force
- Controls doors up to 48" wide & 250 lbs
- Functions like ordinary door closer when used manually

Dependable

- Protection from high-wind & abusive environments
- Built-in battery backup
  Tested 10+ million cycles
- Latch Assist ensures dependable door latching

SUSTAINABLE

A fully charged battery has the capability to open a door up to 2000 times in a row, generously allowing for periodic fluctuations from 80/25 guidelines with little impact on the product's overall usability. Example: 30% automatic use for one day is not a problem, as long as that level of automatic use is not sustained.

Seamlessly Interface to:

- ADAEZ wireless push buttons
- Wireless hand held remote
- Electric locking devices
- Access control system
- Outside Push Button Disable: Privacy Feature
- Emergency Interface Relay (EIR)
