

## DAHUA

### Two-wire IP Outdoor Station

Monitor your home's entrance with the **Residential Video Intercom Two-Wire IP Outdoor Station**. This outdoor station captures the scene outside your door with horizontal and vertical fields of view of 90° and 120° respectively.

The camera delivers color video both during the day and at night, while the speaker and omnidirectional microphone built into the station allow for two-way voice communication with callers at your door.

## Features

- 1.3 MP Wide Angle Pivoting Camera with Night Vision
- Built-in Microphone with Two-way Talk
- Provides an Audible Alarm if Removed from the Wall
- Connect Outdoor Stations to an NVR for Recording Call Sessions from the Indoor Monitor and for 24-hour Local Recording
- Easily Leave Audio and Video Messages
- View and Talk with Visitors and Remotely Unlock Doors Using the app
- Stainless Steel Panel can be Surface- or Flush-mounted
- IP54 Ingress Protection and IK07 Vandal Resistance

## One simple button

When someone rings your doorbell, you can watch the outdoor station's video feed on an indoor monitor or mobile device (both available separately).

You can also speak to your visitors from your indoor monitor, or even remotely using an intercom mobile app. Visitors ringing your doorbell are assisted by voice prompts, and can easily leave audio and video messages if no one answers.
